RE: U. S. Patent No. 6,744,837 Dated: August 10, 2004; Entitled: "OCEAN SURFACE CURRENT MAPPING WITH BISTATIC HF RADAR" - Barrick et al.

Commissioner:

The Figures that issued for U.S. Patent No. 6,744,837 are not the formal figures submitted on May 13, 2004, by the Applicants. Enclosed is a copy of the Submission of Formal Drawings (Tab A) and a copy of the stamped postcard from the PTO acknowledging receipt of the formal drawings on May 17, 2004 (Tab B). Also enclosed is form PTO 1050 (in duplicate originals) and a check for \$100, in which errors of a minor nature are corrected. These errors are due to oversights by both the Patent Office and Applicants.

Patentees respectfully request the errors specified in the form PTO 1050 and the Figures be remedied by a corrected patent under 37 C.F.R. 1.322(b). A corrected patent is appropriate because: 1) the errors to the Figures are not attributable to the Applicants; and 2) the errors affect all of the Figures and some of the claims.

Should any additional fees under 37 C.F.R. § 1.20(a) be required for any reason, the Commissioner is authorized to deduct the appropriate fees from Fulbright & Jaworski L.L.P. Deposit Account No.: 50-1212/CODA:002USC1/MCB.
